T3E 2006

At the time the highest national trainer education

BAS-education

Training for younger kids

THIS IS ME

Lives in Lidingö, close to Stockholm in Sweden, with my husband Fredrik and our two children. I have a great passion for our sport handball and I am today trainer for our oldest girl.

I have taken with me the great spirits of handball to my work. I have gotten great results building strong teams out of many "star" co-workers. I am used to making budgets and following up on them closely. My work has taken me to many countries and cultures where I have had responsibilities for both governmental and private customers and organisations. I believe I have a strong integrity but is also very solution oriented and usually find good ways to work and cooperate with everyone.
